COOLIDGE CARAVAN VISITS REDWOOD

The Coolidge Campaign Caravan which started from the president's birthplace, Plymouth Vt., and has been conducting a spirited campaign in all parts of the United States, finished several days of campaigning in Los Angeles and Sacramento and yesterday passed through Redwood City on their way from San Jose to San Francisco.

The caravan, consisting of a large number of cars, has been met with enthusiastic audiences throughout the country. They stopped in front of the court house here and for about twenty minutes addressed the crowd of local citizens who had gathered to meet them.

In an interview with a representative of this paper, a member of the caravan stated that from what they can gather, in their journey across the continent, the president will receive a majority at the coming election which will surprise even his most hopeful partisians. "The nation is sold on Coolidge," he exclaimed. "They know the type of man they have in Washington now, and they will keep him there. Don't worry."

The address to the citizens was given by Captain C. S. Nasbaum of the California state headquarters of the Coolidge campaign. Captain Nashaum spoke in place of A. W. Jeffries of Vermont, who is the principal speaker of the caravan. Mr. Jeffries has been making from three to ten speeches a day since September 6 and has been traveling on an average of 200 miles per day since that time. He was to speak in San Francisco after leaving here.

MOTHER SEEKS ADMINISTRATION IN CAPTAIN DAVES ESTATE

A petition for letters of administration of the estate of Captain Ivan J. Daves of this city, who recently passed away, was filed in the office of the county clerk this week by Mrs. Rosa B. Wagner, mother of the deceased. This is the second petition in the estate, a former one having been filed by the widow of Daves last week. The latter petition will be heard on October 30 and will probably be continued until November 6 at which time Mrs. Wagner's petition is scheduled to be heard. The estate of the captoin is said to consist of several thousand dollars, chiefly in property in this and Santa Clara county.

BOOSTING GOOD ROADS

The supervisors of San Francisco county have reached the decision that there must be good roads provided for their constituents so they are backing a proposition to have a number of the highways of San Mateo county put in good condition for the San Francisco autoist. They have organized a movement which will try to persuade the state authorities to put state money into the completion of the Bay Shore highway, the continuation of the Skyline boulevard from Woodwardia to Watsonville, the reconstruction of the old Ocean Shore road as a highway, a new road from the Dumbarton bridge to Redwood City and several other propositions. We trust the movement wil bring results as all of these arteries of travel would mean much to San Mateo county.

MAILING OF DIRECTORIES FINISHED THIS WEEK

The Times-Gazette this week completed the mailing of the business directories of Redwood City, which they have just published. One of these convenient little books has been mailed to each telephone user in this section. Have you received yours yet? It not call at the office of this paper or at Young's Drug store and you will be given one free.

The Times-Gazette's business directory includes a complete directory of businesses in Redwood City, with a clasified index. It is small and handy to have near your phone where ia will always be convenient.

Local Carpenter Ends Own Life

While in the throes of what is thought to have been a fit temporary insanity John Oleson a carpenter living with his father on Hillcrest drive, last Tuesday ended his life by hanging. Oleson was employed by Gus Waler of this city. He had worked during the morning and had taken another of the men home telling him he would call for him on his way to work after lunch. He arrived at his home apparently in good spirits.

When Niesel Oleson, the young man's father, went to call his son to lunch. he found him hanging from a rope in the bathroom of their home. He had tied the rope to a rafter and after fastening the other end around his neck had jumped from a wash stand, and had died almost immediately. The elder Oleson with the help of a neighbor, whom he had called, managed to cut the body of his son loose. Dr. J. N. Blood was summoned immediately, but found the young man dead when he arrived.

Young Oleson was a native of Aarhuse, Denmark, and was 30 years of age. He had had steady employment and was securing good wages. No reason has been found for his wilfully taking his own life.

The funeral of the young carpenter took place Thursday from the chapel of the James Crowe Undertaking Company. Interment was in the cemetery of the Presidio at San Francisco, as the deceased was a veteran of the World war.

KIWANIS CLUB HEARS TALK BY M. J. WISE

The Redwood City Kiwanis Club met as usual last Tuesday noon and had as their speaker, Marion J. Wise of San Francisco. The meeting was under the chairmanship of Ernest Lock.

The topic of the speaker was "Kiwanis Inspiration," and in a short but interesting talk he outlined the meaning and field of action of a Kiwanis club. In part he said as folows:

"The great outstanding achievement of human effort is building, and we are inspired by the results of labor and genius that have made possibie development in agriculture and manufacturing, modern transportation facilities by land, water and air, means of communication over long distances, magnificent public and private buildings, and all those things that go to make for our comfort and convenience, as well as exciting our admiration. It would seem, therefore, that no more fitting inspirational motto could have been selected than that of Kiwanis—"We Build."

"With its good fellowship, selective membership, sound principles, high ideals and constructive building, Kiwanis embodies in the most complete way those influences of an inspirational character. It is our duty and privilege to see that they are preserved in their truest and purest form. In doing so we inspirit ourselves with that character of service, which makes for the highest type of manhood and at the same time provides a means of conveying it to others. This can be done in no better way than keping before us at all times our motto—"We Build." It has been our guide and inspiration in uncounted good deeds already done and will continue to urge forward to higher and better achievements the members of this organization of which we are so justly proud."

STATE MASONS HONOR O. M. CARRINGTON

At the convention of the Grand Lodge of Masons of California, which met in Los Angeles last week, Otis M. Carrington of this city was appointed organist of the Grand Lodge. Professor Carrington has a reputation among Masons throughaut the state for his musical ability, and has delighted Masonic audiences in all parts of the state with his ability as a singer and organist. It is in recognition of this exceptional obility that the local man has been selected by the newly elected Grand Master for this post in the Grand Lodge.

This year was the Dliamond Jubilee of the Masonic order in California. The first Masonic lodges were established in this state in 1849 during the gold rush by the sturdy pioneers who came in search of the bright metal, over the deserts and mountains and around the Horn. Today there are nearly 550 Masonic lodges with a total membership of 101,000..

The Grand Lodge meets annually usually in San Francisco, but this year in the southern part of the state. Arthur S. Crites was the retiring Grand Master. He is succeded by David J. Reese, editor of the Ventura Times.

Among the local Masons who attended the Grand Lodge session were Charles G. Lambert, inspector of this Masonic district, and Charles Merrill, master of the local lodge.

Among the distinguished guests of the Grand Lodge, was Lasardo Munoz Sanudo, 33rd degree, Grand Master of the Grand Lodge of Colon, Cuba, and Lieutenant Grand Commander of the Scottish Rite of Cuba.

WOODSIDE NOTES

James Athern Folger gave a stag party over the last week end at his place here when he had twenty of his friends from the city as his guests.

Mrs. A. H. Audiffred entertained sixteen of her friends at dinner on Sunday last.

Mrs. Joseph L. Ross, Jr., gave a luncheon on Friday in honor of Mrs. J. L. Ross, Sr., and Miss Blanche Ross who have just returned from Santa Barbara.

The father and mother of Mrs. Percival Jarvis, Mr. and Mrs. Creswell, have come from England to spend the winter at the Jarvis home.

Once more we stood on the hilltops, gazing skyward hoping to glimpse the Shenandoah on her return trip. But the fringe of fog, paking its nose over the mountain tops, concealed her perfectly.

C. T. Bradley has returned from his summer resort at Lake Tahoe. He reports a considerable falling off in the travel to that region this year due, first, to the hoof and mouth epidemic and later in the season to the fear of forest fires, although actually there were no fires within thirty miles of the lake.

Woodside is determined to establish herself as a musical center. Raymond von Savoye, Jack Hosford and Eliot Bartholomew have joined the high school band and Miss June Cummings has opened a studio at the home of J. J. Kelly to which a number of the younger children are repairing for musical instruction. Strange wails and moanings rise upon the evening air, which an analytical ear can inally resolve into the tones of violins, saxophones, cornets and baritose horns.

Miss Belle MacDonald of San Francisco has been a guest for several days of Mrs. Fred Mighall.

Dr. J. L. Ross is putting extensive improvements into his place at Little Forest.

The radio fans of Woodside, into which class most of our population falls, sat tightly by their receivers on Thursday evening listening to the speech of Calvin Coolidge broadcasted from Washington.

Congressman Free Out for Coolidge

Congressman A. M. Free of this district, returned to Washington last Thursday, after two weeks spent in campaigning for President Coolidge in Indiana and Ohio. The congressman returned for a few days of rest and for a conference with the president and the republican leaders.

The leaders have decided to put on an intensive campaign in doubtful states, and Mr. Free has been requested to spend the remainder of the time before election in Wisconsin and Iowa. He leaves tonight for a very intensive speaking campaign.

Congressman Free is looked upon as one of the best informed men on agriculture and agriculture legislation in Congress, and his campaign speeches have been of great benefit, particularly in farming communities, to the Coolidge campaign.

SAN CARLOS COUPLE WED

The home of Mr. and Mrs. Clarence E. Haydock of San Carlos was the setting for a very interesting and happy nuptial event last week when their daughter, Miss Gladys became the bride of Mark D. Mallory, son of Dr. and Mrs. George W. Mallory of Santa Rosa, California. The groom is the brother of H. West Mallory, president of the board of fire commissioners of San Carlos. The Rev. Dr. Dodge, former pastor of the congregational church of Redwood City, officiated.

Miss Helen Mallory, sister of the groom, acted as bridesmaid, and Kenneth La Point, an old school chum of the groom and at present a student at the University of California, did the honors as best man. Only relatives of the young couple attended the happy affair, among whom were: Mrs. L. L. Gates of Oakland; Dr. and Mrs. A. A. Fowler and two daughters, Ruth and Wynette of San Jose; Mr. and Mrs. H. West Mallory of San Carlos; Frank and Wesley Haydock of San Carlos; and the v. Reverend Mr. Dodge and daughter, Miss Isabell of Palo Alto. A short time previous to the nuptial day, the young bride was given a generous shower by her many friends in San Carlos at which e vent she was the recipient of a number of very pretty and useful presents.

The bride came to San Carlos from San Francisco with her parents when a little tot, and has grown to young womanhood in the town of her adoption. She attended the San Carlos grammar scrool, of which her father was clerk of the board for many years, and who, with the active assistance of Frank Quinn, now deceased, had more to do with the establishment of the San Carlos school district, than any one eles in the community, and with the construction of the present school building, which is such a credit to our little city. Mrs. Mallory completed her education at the Sequoia Union High School Redwood City, from which she graduated last year.

The happy young couple carry with them to their new home in San Francisco the very hearty and sincere good wishes of a host of friends for a very happy and successful nuptial voyage through life.

WOMAN'S CLUB PLANS BIG PARTY

Plans are now nearing completion for a whist party to be given on November 14 by the Redwood City Woman's Club. A comittee under the joint chairmanship of Mrs. W. Frost and Mrs. E. Kilbourne have been working on the matter for some time and it is understood that the plans contain several novel features which should make this affair one of the most successful ever given by the local organization.

As a door prize the ladies will have a real live turkey, and as this will be just before Thanksgiving it is generally conceeded that the door prize will be apreaciated. High scores will be rewarded with ten other prizes which the ladies have secured. Refreshments will also be served.

The funds received from this card party will be divided between the club's welfare fund and the repair fund which is kept to make any necessary repairs upon the clubhouse. It is expected that this will be the largest party the club has ever attempted, and the ladies are anxious to make it a great success. Tickets are on sale at 50 cents which includes refeshments, and as one member remarked, "plenty of 'em."

AMALGAMATION MEETING HELD

Efforts to arouse public interest in the question of the amalgamation of San Mateo county with San Francisco which was recently begun by friends of the measure met the first snag on Sunday evening when a division among the ranks of the advocates of amalgamation was brought about over the question of the best means of securing public attention.

Daniel C. Imboden, chairman of the committee recently appointed to study the amalgamation question, refused to attend the forum at the Congregational church in San Mateo held by Dr. Charles L. Kloss, pastor of the church. In a letter written to Dr. Kloss, Imboden gave as his reason that the question should be taken up in study and not in debate.

Horace W. Amphlett, San Mateo publisher and Arthur H. Redington, city attorney of Hillsborough, were the principal speakers of the evening. Amphlett stated that he was in favor of making an impartial study of the question.

Redington attacked the measure and brought forth arguments to show that it would not be beneficial to San Mateo county to be united with San Francisco.

San Francisco is bonded to its full capacity, Redington said, and the politicians of San Francisco want to have San Mateo county annexed because San Francisco wants San Mateo county to pay for development. The figures of 96 cents and 4 cents are likely to be turned around with San Mateo county paying the 96 cents.

Redington lauded the Southern Pacific Company, the Market Street Railway Company and the Peninsula Rapid Transit Company of the services they are rendering the community and thought it unwise to extend the Municpal railroads of San Francisco into the county to a terminal beyond Redwood City.

The Spring Valley property in San Mateo county pays one-tenth of all the taxes, Attorney Redington stated, and if this territory is bought by the city of San Franisco, as it must eventually be purchased the people of San Mateo county will lose the taxes now paid by the water company. Without amalgamation, the City of San Francisco would have to continue to pay taxes on the Spring Valley property should it be taken over, Redington explained.

Redington stated that he believed the committee suggested to study the amalgamation question should make an impartial study of the subject, and that he hoped to see it composed of representative citizens—Burlingame Advance.

GET THEM WHEN THE YARE YOUNG

THE SANTA CLARA DISTRICT CHRISTIAN ENDEAVOR UNION held its annual convention here last Friday, Saturday and Sunday. Young people from San Mateo, Santa Clara and San Benito counties were present. They took part in the services, and heard addresses that were uplifting and inspiring.

It is a good thing for young people connected with a church of any denomination to be actively engaged in some phase of the work. Activity along any line begets interest and interest begets earnest participation in the movement.

The ideals stressed in the particular work represented by the C. E. Union are high and praiseworthy and the songs sung and the pledges made will help many of the young people when some difficult situation has to be met. Most of the prominent men of the county have attained their prominence because of things learned and practised at some organization connected with a church.

BE SURE YOU VOTE

THE activity of the various Kiwanis Clubs of California in seeing that all members of the organization vote is most commendable. The disregard of the right of suffrage by many American citizens is a matter worthy of serious consideration.

Voting is not only a privilege, but is is also a duty and one who neglects his duty is not a real good, loyal American.

We do not know just how the matter should be handled, but anyone who is eligible and able to do so, should be penalized if he neglects to vote at any general election. The penalty might be a tax to be applied to educational purposes or it might be the loss of further privileges. At any rate a citizen who is so careless of his rights and duties that he neglects to vote should suffer for the neglect.

SIR THOMAS LIPTON AGAIN

WE note with interest that Sir Thomas Lipton is again in this county and is seeking a yacht race with America. Sir Thomas is a good sportman and a good loser. He has built many boats that have sailed against our Yankee crafts. He has never been able to have a winner, however.

We hope that should any Englishman ever build a yacht that will take the cup from America that it may be Sir Thomas Lipton.

THE CHRONICLE'S NEW HOME

WE are glad to see our big neighbor, "The San Francisco Chronicle" in its new home. Mr. M. H. De Young has just cause to feel proud of the quarters into which he has moved his paper. From all accounts it is one of the most up-to-date establishments in the United States and that means the world.

We wish the Chronicle many happy and prosperous years in its new home.

A GOOD MAN IN THE RIGHT PLACE

NO loyal republican has any reason for not supporting President Calvin Coolidge in his campaign for reelection. Mr. Coolidge took over the reins of government at a particularly hard and trying time. Never in the history of our country was more suspicion cast upon the integrity of the ruling party. Men in high places were under suspicion. Mr. Coolidge, however, has conducted himself and the affairs of the nation in such a way as to bring back a feeling of peace and security.

It is possible that he has made mistakes in using his power of veto, but if he has it was because he believed his action necessary for the good of the country. He has always put duty before personal advancement.

We believe Calvin Coolidge is the man needed at this time and every loyal republican should support him.

ISN'T IT THE TRUTH?

"BUSINESS is good at the present time because three fundamental factors are right. We have easy money, we have prospect of restoration in Europe to sound economic basis and an enormous increase in purchasing power of agricultural sections of the country together with a favorable trend in labor," says E. Paul Young of the Illinois Power and Light Corporation.

No shorter, clearer statement has been made of basic conditions today than Mr. Young's summary.

Every man and woman can understand the conditions and they know that anything that interferes with normal working out of these conditions will be immediately reflected in higher interest rates, less industrial activity and fewer jobs and a poorer market and price for agricultural products.

Why not all work to carry out a sound and constructive program?

COLLEEN MOORE PLAYS TWO ROLES IN NEW PICTURE, "FLIRTING WITH LOVE"

"Flirting With Love," the First National comedy-drama, featuring Colleen Moore and Conway Tearle, which is to be shown next Monday and Tuesday at the Sequoia Theatre is based on the theory that certain persons have in reality two distinct personalities.

When Robert Louis Stevenson published his "Dr. Jekyll and Mr. Hyde," which treated of a man who periodically changed from a mild, tender-hearted physician to a homicidal brute, skeptics ridiculed the author's declaration that such phenomena existed.

Students of psychology have since discovered that dual personality is not at all uncommon. Recently several cases have come to the attention of the scientific world to bear out the theory. One of the most recent was that of a woman in California whose mental aspect changed completely overnight, transforming her into an entirely different person, with changed tastes, changed likes and dislikes and changed opinions.

The picture deals with the romance of a stage actress who pretends to lose her memory and later feigns a dual personality in order to revenge herself on the man responsible for closing her show.

Colleen Moore in the role of the revengeful actress is given an excellent opportunity to display her rare comedy and emotional talents in this part. Conway Tearle has an ideal role in the character of the censor, who later falls a victim to the wiles of the pretender.

The remainder of the cast of the picture, which was directed by John Francis Dillon, consists of these screen luminaries Winifred Bryson, Frances Raymond, Alan Roscoe, John Patrick, William Gould and Marga La Rubia.

BARTHELMESS SEEN IN NEW CHARACTER

Ever since Dick Barthelmess played the part of the Chinaman in "Broken Blossoms," moving picture fans have wanted to see him in a character role. They are gratified at last in "The Enchanted Cottage," which is to be shown at the Sequoia theatre on Wednesday and Thursday, Oct. 29 and 30. In this picture, Dick plays the part of a cripled, shell-shocked veteran of the great war.

For over two weeks Dick experimented with makeup before he obtained the proper effects for his present role. As he explains it, the difficulty lay in the fact that although his character wears the clothes of a young man and is supposed to have all the desires of a young man for life, he must portray with his face only the bitter, unhealthy moods of a chronic invalid.

"If I could wear rags," this part would be easy, " Dick said. "But it took me a long time to adapt myself to a limping gait, twisted shoulders and the dull stare of a sick man."

Incidentally, May McAvoy also plays a character role in "The Enchanted Cottage," an innovation for May, who has never deviated much from straight parts in the past. Her role is that of a homely girl and she has resorted to the tricks of the makeup box to obtain her effects.

It is a John S. Robertson production and a First National Picture.

RED CROSS DUTY TO AID VETERANS

Spends Nearly Four Millions in Year to Lessen Burdens of Disabled Soldiers.

SERVES 63,700 IN HOSPITALS

Every Case Is Given Individual Service—Assists Families of These Men Everywhere.

Washington.—The need of individual assistance by ex-service men and their families from the Red Cross is as pressing today as it was immediately after the end of the World War. For six years this work has been foremost of all Red Cross services, and in emphasizing the steady public support of this work the Red Cross National Headquarters urges the largest enrollment this year during the membership campaign opening on Armistice Day, November 11.

Nearly four million dollars of Red Cross funds spent for disabled veterans and their dependents during the year ended June 30 last presents some idea of the magnitude of this work. The current year, it is estimated, will call for still further disbursements of funds for the reason that the Red Cross, through more than 3,500 Chapters in as many communities in the United States, has been called upon to help the ex-service men in making out their applications for the adjusted compensation granted in the so-called bonus law.

58,767 Soldier Cases a Month

The Red Cross work for the disabled soldier is designated "home service," for it gives individual attention to the man and his family approximating the interest and loving care of the home. Such service in the hospitals, camps, soldiers' homes and sanatoria, averaged 33,951 cases a month during the year. Assistance to ex-service men and their dependents averaged 58,767 cases a month. In addition, the Red Cross in the last twelve months provided 33,000 recreation and entertainment events in the hospitals and camps.

Thus the Red Cross, symbolized as the "Greatest Mother," still watches over these many thousands of men, comforts them, helps to lighten the tedium of their physical reconstruction, and in their homes lifts some of the burdens from their "own people."

Work in Communities Increases

The home service of the Red Cross was the most pressing duty of 2,609 Chapters, an increase of 182 communities where problems affected by the war veteran's condition required solution through immediate and intelligent assistance. The Chapters alone expended some $2,000,000 in this work.

The transient disabled soldier, usually suffering from disability or tuberculosis, is almost everywhere a grave problem. From national funds the past year $173,076.36 was expended in helping the Chapters to care for these wandering men.

According to government report there are 4,800 veterans in civilian institutions, and in the national homes for soldiers the complications are increasing. The large groups of patients whose claims have been disallowed, of veterans of foreign wars, and the great number of men permanently resident in these institutions call for Red Cross work which cannot be avoided nor denied.

Definite Service to 73,700

Of a total of 84,500 ex-service men in hospitals and other institutions 73,700 were rendered a definite and specialized service by the Red Cross. In a single month 4,185 new cases were presented and a total of 20,125 was acted upon—figures which serve to illustrate the magnitude of the information and claims service engaging the attention of Red Cross workers. New veteran legislation amending the War Risk act which extends many additional rights to disabled ex-service men will reopen thousands of cases and require still greater Red Cross service.

When Congress granted a charter to the American Red Cross it charged the organization with the duty to act as "the medium of communication between the American people and their Army and Navy." This responsibility to the enlisted men and their families is met every year without restriction.

Serves Men on Active Service

The extent of this Red Cross activity during the last year embraced a total of 195,246 cases. There were 36,995 separate soldiers' and sailors' claims; 20,316 investigations of home conditions; 11,421 cases related to discharges, furloughs, etc. Assistance was given in 39,688 instances for personal, business or family problems; 744,220 visits were made to the sick or disabled, and nearly 40,000 letters and telegrams dispatched to the homes of enlisted men.

From June to September at the numerous military training camps the Red Cross provided information and home service to the trainees, also instruction in First Aid and Life-Saving. The entertainment and recreation events at the various Army and Navy hospitals reached nearly 9,500 during the year, and occupational therapy in nine Naval hospitals gave constructive and beneficial results and occupied the time of patients in the making of useful and ornamental things.

This Proves Can Save Fish; Vote "No" on Initiative 11

A fish ladder in Oregon showing how they get fish over the high dams. "Save Both Fish and Power," is the plea of Californians who desire that development of California's own Muscle Shoals, the Klamath river, shall not be prevented by politicians. The United States government says this water power will add enormously to California's wealth and should be developed. The United States guarantees to protect the fish and still permit development of this project four times potentially greater than Muscle Shoals. The people of Humboldt county and thousands through the state ask a vote of "No" on initiative measure Number 11 at the November elections.

GREAT ACHIEVEMENTS

ROOSEVELT DAM

The Roosevelt Dam which stores water for the irrigation of the fertile Salt River Valley of Arizona, is perhaps the greatest engineering achievement of its kind in the world. It was built by the United States government at a cost of $6,500,000. It stores 1,367,305 acre feet of water.

ONE of the greatest banking achievements in the history of the United States has been the building of the Bank of Italy's vast banking system which now extends throughout the entire state of California. To have developed from relative obscurity to the eighth bank of the nation in twenty years may rightly be considered a notable achievement.

This bank through its Trust Department acts as Executor, Administrator, Guardian, Trustee, Agent, Escrow holder and in all other fiduciary capacities.

A Service That Met The Test

THREE main factors enabled the Pacific Gas and Electric Company to weather the long drought without any shortage of power, and, at the same time, to supply an increased demand amounting to twelve per cent, and to give service to 21,338 new consumers.

1. The efforts of a devoted and efficient organization.

2. Co-operation for the public benefit among the power companies of California.

3. Diversity of demand in its wide territory built up through the years by foresight and initiative, and making possible the maintenance of large auxiliary plants without unduly burdening the ratepayers.

Factories, mines, farms, railways, stores and homes, pulling on the lines together, this summer put Pacific Service to the most severe test it ever encountered; but it met every call and steadfastly maintained its high standard without any increase in rates.

That achievement means much to the public in terms of industrial and agricultural prosperity and domestic comfort. For years the P. G. and E., always looking ahead, had prepared for such a test; and when the emergency came Pacific Service met that test. Next season another mighty plant—Pit No. 3—will come into play and the company has no fear for the future.

The Pacific Gas and Electric Company has 11,600 employes and 30,000 owners, nearly all Californians. This company is a true servant of the public, on the job in all seasons and at all hours.

Somebody could make a hit with the tired business man by starting a school whose graduates would know how to spell.

"I am ready for Company"

no matter how unexpectedly they announce they are going to call," says Mrs. Housewife.

"The cozy inviting warmth of my home always extends a welcome greeting to my many friends. When they call they never think of giving me much advance notice because they know, with my gas heating system, I will be ready.

"They all say they can understand why I am always ready to greet them. Without fuss or bother my home is quickly heated just as I desire it and at very reasonable cost. I would not be without my gas heating system and always tell my friends how much it means in lightening house work."

NOTED EDUCATOR WILL LECTURE IN PALO ALTO

An event of unusual interest to parents, teachers and others interested in newer and better educational practices is scheduled in Palo Alto in the coming visit of Mrs. Marietta Johnson of Fairhope, Alabama. Mrs. Johnson has been brought to the coast by leading educators in the universities and other schools, around the bay region, and will appear in courses of lectures in San Francisco, Berkeley, Oakland, San Jose and Palo Alto.

The "School Organic Education" in Fairhope is the result of Mrs. Johnson's work since 1907, when she started in with her own two boys and four children she "borrowed" from the neighbors. Within three years the school had grown to the point where a number of buildings were necessary to house the group. Her original contribution to educational practices soon attracted the atention of leading educators throughout the country, and celebrities from everywhere have visited the school. Prof. John Dewey of Columbia University made a study of her work and most highly endorses it in his book, "The Schools of Tomorrow," devoting an entire chapter to the school. Many popular magazine articles appeared in 1914 and 1915 describing the unusual accomplishment of Mrs. Johnson.

The Palo Alto series of lectures will be given at the Castilleja school gymnasium on November 24, at 4 p.m. and 8 p. m., and Nov. 25 at 4 p. m. which are priced at $1.50 for three lectures. The tickets also include the privilege of attending round table discussions to be held in San Francisco on Saturday mornings at ten o'clock at 1212 Market street, for seven Saturdays.

The committee on arrangements for the Palo Alto meeting is as follows: Mrs. J. S. P. Tatlock, chairman; Miss Sara Harker, Miss Mary Lockey, Supt. A. C. Barker, Mrs. Frank Duveneck, Mrs. Harold Heath, Mrs. Walter Packard, Mrs. David L. Webster, Mrs. Horatio Stebbins, Prof. Almack of Stanford, Mrs. Robert Cody, Parent-Teachers Association, Miss Rebecca Greene, high school, Mrs. Chas. Woods, Menlo Park, Rev. George Whistler, Mrs. P. A. Ross, Elmo Robinson, Mrs. E. D. Adams. Tickets and further information may be obtained from any member of this committee.

Several Palo Alto residents plan to attend the San Francisco meetings, and any others who wish to take advantage of this opportunity are urged ta secure their tickets at once.

Convince yourself

It is a matter of simple arithmetic to prove for yourself that ice, used regularly throughout the year, will pay for itself in the food it saves.

Keep a careful record of your food bills for a month. You will see that for a small percentage of this sum you can keep your refrigerator filled with ice.

Compare this with the cost of food wasted every month in the "kitchen cooler." The answer is—*ice is a real economy as well as a protection to health.*

Cleaning Without Odor by the F. Thomas Process

Our many years of experience has taught us that it is impossible to do perfect cleaning with cheap, inferior methods. That is why we found it necessary to invest nearly $500,000 in the equipment of a plant and the establishment of an expert organization to do the quality of work demanded by our customers.

With the "F. Thomas Process" we not only remove every particle of dust but we return your garments without that usual disagreeable smell of gasoline. Every drop of gasoline we use in cleaning is redistilled and very highly refined.

Raw gasoline—the kind that you buy for your automobile—is full of heavy oils and unfit for cleaning fabrics. It is little better than ordinary distillate and leaves a sickening "gasoline" smell in your clothes

NEWS OF MENLO PARK

Late yesterday afternoon the sale of one of the big estates in Menlo Park was consummated. The deed of transfer not having been made, the name of the estate and purchaser will not be made known until next week. The sale is one of the largest that has taken place in this section for some time

The National Council of Catholic Women, Menlo Park branch, will hold a meeting in the Hall of the Nativity on October 29 at 2 o'clock. This will be the annual meeting of the council at which officers for the ensuing term will be chosen. All members are urgently requested to attend.

Senator Samuel M. Shortridge is campaigning in Southern California for the republican party, and is drawing large audiences. Mr. Shortridge deserves the commendation of his party for the good work he is doing in expounding republican doctrine. He is making the best speeches of the campaign.

It would now appear that the people of the peninsula are to have a vehicular bridge across the lower bay at Dumbarton point. By an inspection made during the week of the water crossing in course of construction in conection with Hetch Hetchy project by Supervisor Ralph McLaren and Enginer M. M. O'Shaughnessy, it is feasible that the transbay acqueduct may be used as a bridge. The acqueduct is built out to the straits and with a little more expenditure a bridge could be secured The people of Menlo Park, many of whom have inspected the acqueduct, are positive that the bridge could be secured at a small cost by using the heavy cement piles used in the acqueduct. All feel sure that a bridge will soon span the lower San Francisco bay, which they have been looking forward to for many years.

Alumni of St. Joseph's School at Menlo Park will give a card party in Duff & Doyle hall on the night of October 29. The former students of St. Joseph's are also arranging a dance, which will be given on November 8 in the same hall.

The attractive Erickson home in the Drexler tract, near Valparaiso avenue, was sold this week to Mr. Clancy of San Francisco for $20,000. Mr. Clancy will take possession of the choice property at once.

The Menlo Park Improvement Club will give a dance in Native Sons hall on November 1. As all the affairs given under the auspices of the club are successes, the dance on next Saturday evening is sure to be a record breaker in point of attendance.

It was persistently rumored yesterday that the Fremont Taxi building and the new store building recently erected close by were sold to Palo Alto parties for a big sum. The rumor could not be confirmed. During the war the larger structure was known as the Fremont theatre, where thousands of soldiers were entertained nightly. It was erected by Fire Commissioner Charles Merrill.

Mrs. W. A. Doyle, prominent in the social affairs of Menlo Park, went to the Palo Alto hospital Wednesday suffering from nervous trouble. Her numerous friends hope she will soon be convalescent.

In celebration of the birthdays of her two children, both of which fall in October, Mrs. J. Kotter gave a party Sunday afternoon. About 15 little friends of Betty and Joseph, Jr., were invited.

Graduates of the Sacred Heart Academy gathered at the school Sunday for a reunion. Luncheon was served at the school and a program given by the pupils, who had been allowed a holiday for the occasion.

Mr. and Mrs. George Angus, Jr., (Esther Carter), will move into their new home in the Winchester tract next week. The house is nearly completed.

During the week the ladies of Menlo Park organized a Coolidge Club of 150 members. The women expect to hold a big republican rally before the election.

Runnymede has changed its name to that of East Palo Alto. In the early days the whole district surrounding there was known as Ravenswood. It was named by the late I. C. Woods, who located there in the fifties. We believe that would be the proper name for that locality. The district is not Palo Alto territory, nor East Palo Alto, but the people want that name, so let it go at that.

Ten bungalows were erected at Atherton recently and already eight of them have been sold. This shows how property is changing ownership in the new incorporation. It is known that Los Angeles people are buying real estate in that locality promiscuously and paying fancy figures for it. The wise citizen of the south sees great possibilities in this portion of the peninsula.

A parcel of property was sold on Collegeway, Stanford Park, this week to a San Francisco party who is to erect a fine home at once.

A program of highway development for the peninsula and the whole northern section of the state this week has the unanimous indorsement of the San Francisco supervisors and representatives of 11 neighboring counties.

The plans were given the approval of about 75 representatives of the 11 counties, the San Francisco supervisors and spokesmen for various local bodies at a meeting last Thursday night at the St. Francis Hotel.

The program to be presented to the Governor's committee of nine on November 12 as San Francisco's part of the state highway program follows,

1. Construction Bay Shore highway from the intersection of Potrero and San Bruno avenue and Army street to San Jose.

2. (a) Paving Skyline boulevard.
(b) Extension of Skyline boulevard from Woodwardia to Watsonville.

3. Extension of Junipero Serra boulevard, using the Ocean Shore railway right-of-way to connect with the present highway back of the cemeteries.

4. Construction of road and approaches on both east and west side of bay leading to the proposed Dumbarton bridge near Redwood City.

GETS LONG JAIL TERM FOR DISTURBING PEACE

B. L. Johnson of San Francisco, who was arrested early Tuesday morning with a woman companion near San Carlos by Officers Thorp and Rosa of Redwod City, was sentenced to 125 days in the county jail by Justice of the Peace Ray Griffin. Johnson was in a car parked on Broadway, near the freight shed about 2 o'clock in the morning. When the officers, attracked by the screams of a woman in the car, aproached the car, the driver started up and headed towards San Carlos.

The Redwood City officers started in hot pursuit and after firing several shots over the car in at attempt to frighten the driver into stopping finally shot one of the tires of the pursued car and caused it to stop.

Johnson and the woman were found in the car, both badly intoxicated. The woman who upon questioning gave her names as Grace Arnold, was almost disrobed. The two were taken to the jail here they were lodged over night. The woman who was 39 years of age was released in court, but Johnson drew a stiff jail sentence.

Ghost Slew His Pets at Seance, Man Says

Paterson, N. J.—His belief that Edward Overbrook, a spiritualist living at 111 Fair street, made spirits and ghosts do his bidding, caused Joseph Kirwin, who lives next door to Overbrook, to swear out a complaint of disorderly conduct against Overbrook when he found his cat and dog lying dead in the back yard.

Kirwin told Magistrate Munson Forde, who heard the complaint, that after a spiritualist seance in Overbrook's home he heard moans in the yard. He went out and saw a ghost, he said, in the shape of a man enveloped in a gray cloud. Then he heard his dog bark and his cat meow.

The magistrate, in dismissing the charge, said that he did not feel there was sufficient evidence to prove that Overbrook was responsible for the ghost.

A GIFT THAT IS A COMPLIMENT

In the gift you receive you can sometimes see yourself as others see you, and the view is not always flattering. It may be a jazz record, or a candy tie, or a book that you would hate to have found on you if an auto bumped you into dreamland. And you can't really blame the giver. Knowing you well he concludes that you crave that sort of thing. In the other hand his gift many convey a subtle compliment—a gift of The Companion for instance. It is a tribute to your good taste, to a certain idealism he has perceived in your make-up, to the impression you give that life is real and earnest and not merely a game of skittles. You may be sure that anybody who thinks slightingly of The Companion as a gift is himself making life a game of skittles—and very little else.

BOOSTING GOOD ROADS

The supervisors of San Francisco county have reached the decision that there must be good roads provided for their constituents so they are backing a proposition to have a number of the highways of San Mateo county put in good condition for the San Francisco autoists. They have organized a movement which will try to persuade the state authorities to put state money into the completion of the Bay Shore highway, the continuation of the Skyline boulevard from Woodwardia to Watsonville, the reconstruction of the old Ocean Shore road as a highway, a new road from the Dumbarton bridge to Redwood City and several other propositions. We trust the movement will bring results as all of these arteries of travel would mean much to San Mateo county.

WILL VISIT EUROPE

Harr Wagner, the well known publisher of San Francisco and a resident of Montara on the coastside of this county, will leave on an eastern trip, November 14th. After attending to affairs in New York, Mr. Wagner expects to go to Europe where he will spend several months in study and travel. Before returning to California he will also go to the Holy Lands. Mr. Wagner is a lecturer of more than usual ability and he will probably use his travel material in several lectures.

"I no longer worry about their Health and Happiness
because my wife and children enjoy the warmth and comfort of a modern heating system in our home," says Mr. Home Owner.
"I feel that they are perfectly safe and free from fire hazard because we burn gas as a fuel. When I am away form home they can easily operate the gas heating equipment just as they need it.
After analyzing my gas bills for the past heating season, I find the cost to be less than $6.00 per month for the year. This I believe is very reasonable considering that our six room house is comfortably heated at all times."
